Polygraph "Testing" is a Crapshoot

Your future is on the table. Before you allow anyone to play this high stakes game of craps with your reputation, be sure to learn the hidden rules.

The polygraph "test" is a pseudoscientific fraud that depends on your ignorance and fear.

The dice are loaded against you: polygraphy has an inherent bias against the truthful. And yet liars can beat the polygraph using countermeasures that polygraph operators cannot detect.

Don't be played for a fool. Educate yourself.

AntiPolygraph.org

(a non-profit, public interest website)

For the truth about lie detectors that
the polygraph operators don't want you to know!
